President.

PROCEEDINGS OF THE BANGALORE CITY IMPROVEMENT COMMITTEE, AT THE MEETING HELD AT 8 A.M., IN THE CITY MUNICIPAL OFFICE, BANGALORE, ON SATURDAY THE 9TH JULY 1921.

Present 10. | Absent 1.

The Proceedings of the Committee at the meeting held on 9th June 1921 were read and confirmed.

1. Letter No. R. 13437—M1. 42-20-40, dated 1st June 1921, from the Secretary to Government, Revenue Department, suggesting the locating of the proposed Cloth Bazaar in an important road like the Hoskota Road, and calling for revised proposals in the matter, in consultation with the Sanitary Commissioner.

Resolution.—The question was discussed and deferred for local inspection of the two sites.

2. *Dimensions of shop sites on the Hoskota Road.*

The opinions of the members of the Sub-Committee appointed to investigate and report upon the proposal of the Executive Engineer, City Improvement Division, to reduce the dimensions of the shop sites, as the sanctioned plan provides for shops 66'×132' which are found to be too big.

The Chairman and Messrs. John Bhore, A. K. Pani, M. Subbiah, B. Abdur Rahmon, and V. Lakshmanaswamy were of opinion that the width of each shop site might be reduced to 40 feet. Messrs. Garudachar, Ramachandra Rao Sindia and Chinnaswamy Chetty were of opinion that the width might be 33' and Mr. Usman Khan was for a width of 20 feet.

Messrs. B. Usman Khan, A. K. Pani and Lakshmanaswamy observed that the width of the conservancy lane behind the shop sites might be 30 feet, but the rest of the members thought that the width of the road might be limited to 20 feet only.

Resolution.—The revised plan of the realignment of sites is approved with the following modifications.

(1) The width of the shop sites should be 40 feet to admit of suitable elevation being designed for the shop frontages on a main thoroughfare 100 feet wide.

(2) The width of the rear road need not be more than 20 feet.

3. Letter No. 2229, dated the 25th June 1921, from the Honorary President, City Municipal Council, forwarding, for sanction, a revised estimate amounting to Rs. 5,606/- duly sanctioned by the Municipal Council, for building an ornamental balustrade parapet wall on the east of the Avenue Road between 'Niton' and Palace Upparhalli Road.

Also the following supplemental estimates received from the Honorary President, City Municipal Council.

(1) Estimate amounting to Rs. 1,774 for plastering the kerbing stones on the sides of the Avenue Road with cement, providing pilasters at every 30 feet.

(2) Estimate amounting to Rs. 1,287 for constructing a slabbed drain on the east of the Avenue Road from the Cunningham Road junction up to a distance of 600 feet to the north.

Resolution.—The three estimates are approved.

4. Letter No. R. 11024—M1. 42-20-32, dated 4th April 1921, from the Secretary to Government, Revenue Department, calling for certain additional information *re* the revised estimate for laying out the Visvesvarapuram Extension.

Also report of the Executive Engineer, City Improvement Division, accompanied by plans and detail estimates of the sewerage of the extension furnishing the information called for.

Resolution.—(1) Regarding the provision to be made in the revised estimate for water supply to the Visvesvarapuram Extension, it does not seem quite reasonable to debit the whole cost of Rs. 1,50,000/- of the separate or the duplicate main to the Visvesvarapuram Extension only. Since the additional main is more urgently needed for an adequate water-supply to the City and already existing extensions-western portion of Chamarajapet, parts of Shankarpur and southern portions of Basavangudi the duplicate main would be necessary even without the Visvesvarapuram Extension. The quantity of water that may be drawn from this additional main by the Visvesvarapuram Extension is not likely to exceed 1/6 of that drawn by the other parts of the City. Therefore, proportionate charges towards the initial cost of the duplicate main calculated on the quantity of water supply required for the Visvesvarapuram Extension may be included in the revised estimate in addition to Rs. 35,000 provided for sub-main and distribution.

(2) The detail plans and estimate for Rs. 92,342 for the efficient sewerage of the Visvesvarapuram Extension are approved, the excess of Rs. 16,076 over the lumpsum provision of Rs. 76,266 being met from the provision of Rs. 21,226 made for slabbed drains in conservancy lanes as such drains are now superfluous.

(3) The calculation and discharge statements prepared by the Executive Engineer for certain sections of the storm water drains show that the sizes provided for drains are not excessive. These calculations may now be submitted to Government for all storm water drains except the V slab drains.

6. Plan and estimate of the grain bazaar proposed to be constructed to the east of the New General Market together with the revised site plan of the stalls

Resolution.—The Grain Bazaar is urgently needed as also the sheds in the rear for miscellaneous trade. The arrangement and plans of these shops are approved. The location of the wholesale fruit godowns rather close to the main drain is objectionable. Another site within the market area should be selected for locating them.

(2) The Committee observe that instead of prolonging the completion of the market, it would be more convenient and profitable, if all the items required for completing the market are allowed at once instead of in yearly instalments and the work completed before the end of the current year 1921-22.
